THE MONTHLY JOURNAL OF SCIENTOLOGY

BOOKS MAKE A HAPPIER LIFE

BY L. RON HUBBARD

Do you know why the first book **DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH** was written? Word of mouth on Dianetics was going forward so rapidly that my letter volume, even before the first book, was startling. Each one of these people expected me, either to write them a long letter and tell them what it was all about, or to be given a chance to come and see me so

that I could tell them personally what it was all about. . . In other words, my time was going to be consumed, not in further research, but in writing letters and talking to people. My answer to this was to write **DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH** which rapidly informed the newly interested person what this new science was all about.

Just inspect the number of simple, startling items in **DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH**. Here you find the Dynamics, here you find several of the earliest Axioms, here you even find the rudimentary A.R.C. tone scale. You find as well a thoroughly accurate description of clears and the reactive mind.

YOU CAN HAVE A CERTIFICATE

If you have read a book on Dianetics or Scientology and applied any of its materials successfully, and if you send the enclosed application to me at Saint Hill, you will be sent 'OVTHubbard Book Auditor's Certificate, without charge.

The Book Auditor is our oldest auditor. Book Auditors existed long before any other kind.

And every auditor begins as a Book Auditor.

Lately in all the rush and scurry to reach the top technically, we have neglected my favourite friend, the Book Auditor.

I have always appreciated and admired the Book Auditor for he has to have nerve and guts to begin and carry on with only a bit of faith and hope.

And as we grow, I surely don't want to forget this friend.

It is the first real stepping stone.

One reads a book and applies it. And suddenly one finds he can change someone or improve the environment and one is on his or her way.

We can't build a better world without the Book Auditor.

L. RON HUBBARD

Briefing Course Success

Bob Anderson SHSBC Graduate

Californian Bob Anderson is one of the latest Class VI's to be graduated at Saint Hill. How did Bob come into Scientology? He read a book the 'Problems of Work' and found that the more cognitions he had on the value of Scientology, the less important his job became. So he trained to Class IV at the San Francisco org and then audited at the Berkeley franchise.

By the end of March 1972 Bob arrived at Saint Hill and had begun Power Processing. By September he'd finished the Saint Hill Special Briefing Course. How did he finish so quickly?

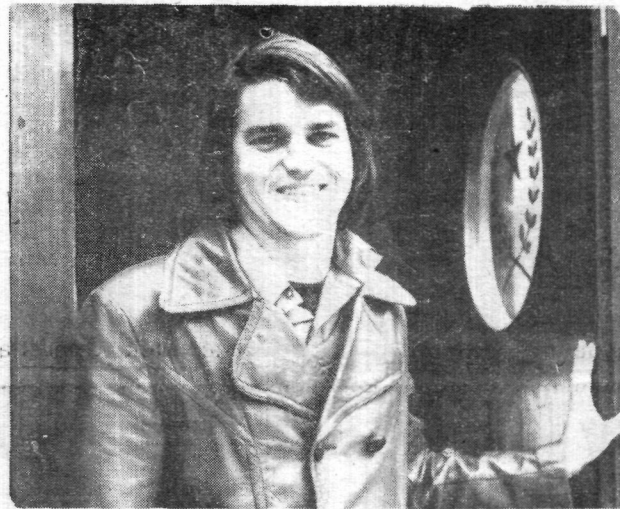

"The student hat really did help. The first part of the Briefing course is nearly all reading, and as my reading speed had increased tremendously through doing the student hat, I was able to get through it in a relatively short period of time. The Fast Flow System really helps. If you know it, you know it — there's no stops."

What did Bob gain from doing the Briefing Course?

"I feel I have a much broader base of tech to draw from. I know how the tech has been developed which makes me a much better Auditor. I can apply the data in everyday life — if you know the auditing tech, it handles bank and you don't only have to do that in session. I have more understanding which makes for more ARC."

In the future Bob would like to start a franchise probably in California, and of course audit. Bob will soon complete OTVII and before he leaves for the States he'll be doing the Internships at Saint Hill.

New Saint Hiller Bob Anderson comes from the Examiners after a session on OT VII.

Peter Pinchot SHSBC Graduate

I've become quite certain of myself as being a safe terminal in a session. I know I can help others to be Clear."

Peter Pinchot is a new Saint Hill Special Briefing Course graduate, completing the course at the Advanced Organisation Saint Hill Denmark.

From New York, Peter came into Scientology after reading a copy of Fundamentals of Thought. In June 1971 Peter travelled across to AOSH DK where he completed the Hubbard Standard Dianetics Course and went straight on to the Briefing Course.

"You know this is so much higher an awareness than I ever dreamed of, I have the tools to help any being up the line towards Clear. I now know enough and can apply it to be absolutely certain that we can make it to a Clear universe if we just follow Ron exactly. He has certainly given us what we need — now it's up to us to do it."

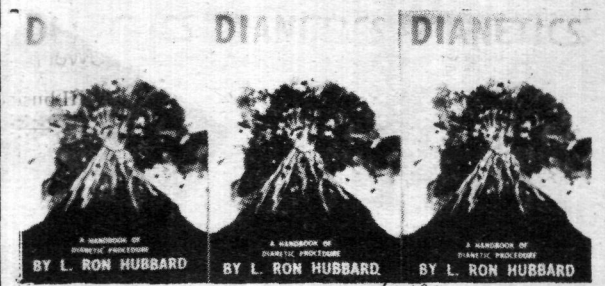

Peter will soon be working at the 'Silent Steam' franchise which is being started at his farm in America. He'll be holding the post of Qual. Sec and Case Supervisor.

Peter is a qualified farmer and likes working in agriculture as a spare time activity. Peter plans to do the Class VI internship at AOSH DK before he returns to the USA.

BOOK SUCCESSES

John Jukes, OT III, North London on Dianetics: Modern Science of Mental Health

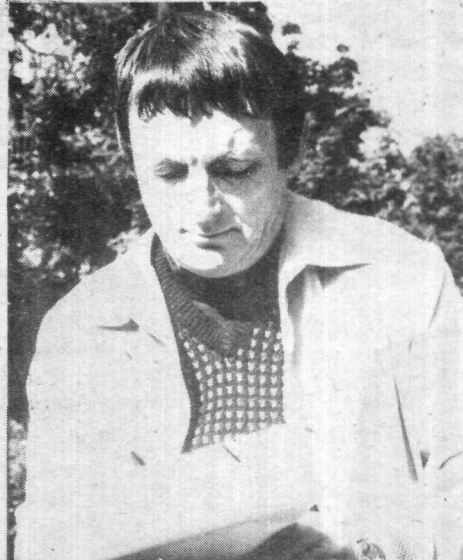

"The library was stiff with people. The section I wanted was smothered with bodies and hands. I waited. This time I had really done it. Stuck with an organisation and system project that was the subject of a top level power battle in the company. I couldn't win whatever solution I tried. I browsed idly along the shelves beside me. The title 'Dianetics: Modern Science of Mental Health' caught my eye. What a funny name. I might be worried and frustrated but I wasn't 'bonkers'. Surreptitiously I slipped it out of the shelf and glanced at the inside cover and flipped the pages. The word Clear caught my eye. Now that is something — or is it. The book went back into the shelf. The section I wanted now had a small hole. I selected the books I wanted and made for the counter. Six tickets, only five books — maybe — ye^x maybe I would have another look at that book with the funny name.

The park was quiet, the sun warm. Children played in the distance. The books were heavy and I wasn't expected back before tea. I opened the first page of 'Dianetics' — all those funny words: 'engrams', 'locks', 'aberration'. The air was suddenly cold, the sun had gone down. It was after seven! I hurried home. At three o'clock the following morning the last page closed. The words still whirled but the basic idea stuck.

The following day I found the address of the organisation that produced the book. I had some

group auditing that weekend. On Monday morning I sat down at my desk and waited. The problems usually homed straight in and zap I was off and struggling. Today they stayed out there. Today I picked them off one at a time. Today I could do what was needed, not what I like or disliked. Today the world was colourful and fun. So here was something that worked. The project went right and both powerful apponents were pleased."

OT III businessman John Jukes

Joe Bueno, Berkeley, California, on The Problems of Work and Fundamentals of Thought:

"Major cognitions on life while reading these books, particularly on the significance of Be-Do-Have and ARC. They really located a ruin of mine and enabled me to work through it. My ability to confront and control life is much better now and I've had great wins from an increase in self-determinism."

Adele Witkin, Johannesburg, on 'Science of Survival'

"Science of Survival is a fantastic book. It shows how to get by-passed charge off a case, it explains tone levels and how ethical levels fit in with case levels. Also it includes the 'Chart of Attitudes' - I've learnt that the more theta there is present the more the entheta de-contaminates. Using the chart I can spot a guy's tone level and bring him uptone by communicating to him slightly above that. I can see a person's reality by how he deals with MEST and I've learnt to grant everyone beingness. Also this book has given me an increased awareness in the observation of people."

Nicky Mendoza, London, on 'Creation of Human Ability'

"When I read this book I get a big keyed out sort of feeling. I'm joyous. It's possibly the hope for man when reading some of the processes, also it's kind of like poetry to me. It's the truth that I feel from this book, the fact that there is someone who knows so much about Man that makes me so high."

Mordechai Ezrati, Israel, on a New Slant on Life.

"This is the first book that I ever read in my life in English. I found a lot of difficulties in reading it and it took me a long time to finish and understand what it was about. For each single word I had to use the dictionary. But, with all the difficulties, I really enjoyed it and can apply the data in life."

Martin Bentley, Sydney on 'Axioms and Logics'

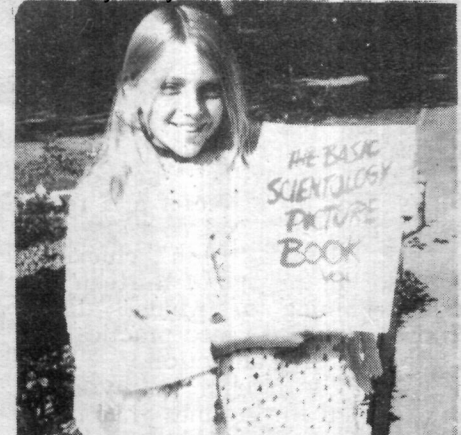

"The book which has meant the

most to me in Scientology is the Axioms and Logics.

This was the first data which ever made me realize the magnitude of Scientology. The Axioms state the basic truths of this universe and as such can give one the power to unmock any condition in life. I first studied the Axioms on the H.P.A. (Hubbard Professional Auditor) course in 1961 and found that just reading them would produce enormous cognitions. Over the years since then I have developed a habit of keeping a copy of the 'Axioms and Logics' in my desk when I am working and any time I run into something I cannot easily handle I pull out the book and start reading. Before long I cognite on the problem and it begins to vanish."

Loretta Miscavige, 10 years, on Basic Scientology Picture Book.

"I've just finished reading the Basic Scientology Picture Book and I really enjoyed it. I found a lot of information I can use in life and it was very easy to understand."

10 year old Loretta Miscavige, current HQS student

SPECIAL REPORT: THE NARCONON BREAKTHROUGH

'Narconon is the ONLY successful! drug rehabilitation programme on the planet' LRH

A REPORT ON THE
NARCONON PROGRAM
AND ITS RAPID
EXPANSION.

THE PURPOSE OF NARCONON

The purpose of Narconon is the reduction of crime and drug abuse in this society, and the rehabilitation of the individuals concerned. It is achieving this purpose through the application of the highly workable technology of Scientology.

HOW NARCONON STARTED

"How would you like to feel like a bird and really fly?"

The words kept ringing in my ears. This might be the chance to escape all of the dreariness of home with its misery.

"Aww, Willie will do it. He ain't chicken."

Again, his words kept hitting me — a chance to escape the lousy, filthy smelling world. But Leroy had said I wasn't chicken!

"Come on Willie," he coaxed, "let's light up a Reefer and really swing, man."

"Ok," I said. "I ain't chicken." And so, at the age of thirteen was the beginning of what I didn't know would turn into practically a lifetime of drug addiction.

"Yeah" I thought to myself as my feet left the ground. I had never left loneliness behind before. It was always with me. But now ... I know I would never be sad again. I now had something that all the rest of the kids didn't. They had clean homes and nice new clothes to wear. They had parents to meet them when they came home from school. They didn't have to walk into an empty house with only the cockroaches to greet them. Now, I also could join the "Have's." I now had found a world that was all my own and you had to be pretty hep to know this kind of world ... at least that's what Leroy had said, and I believed him.

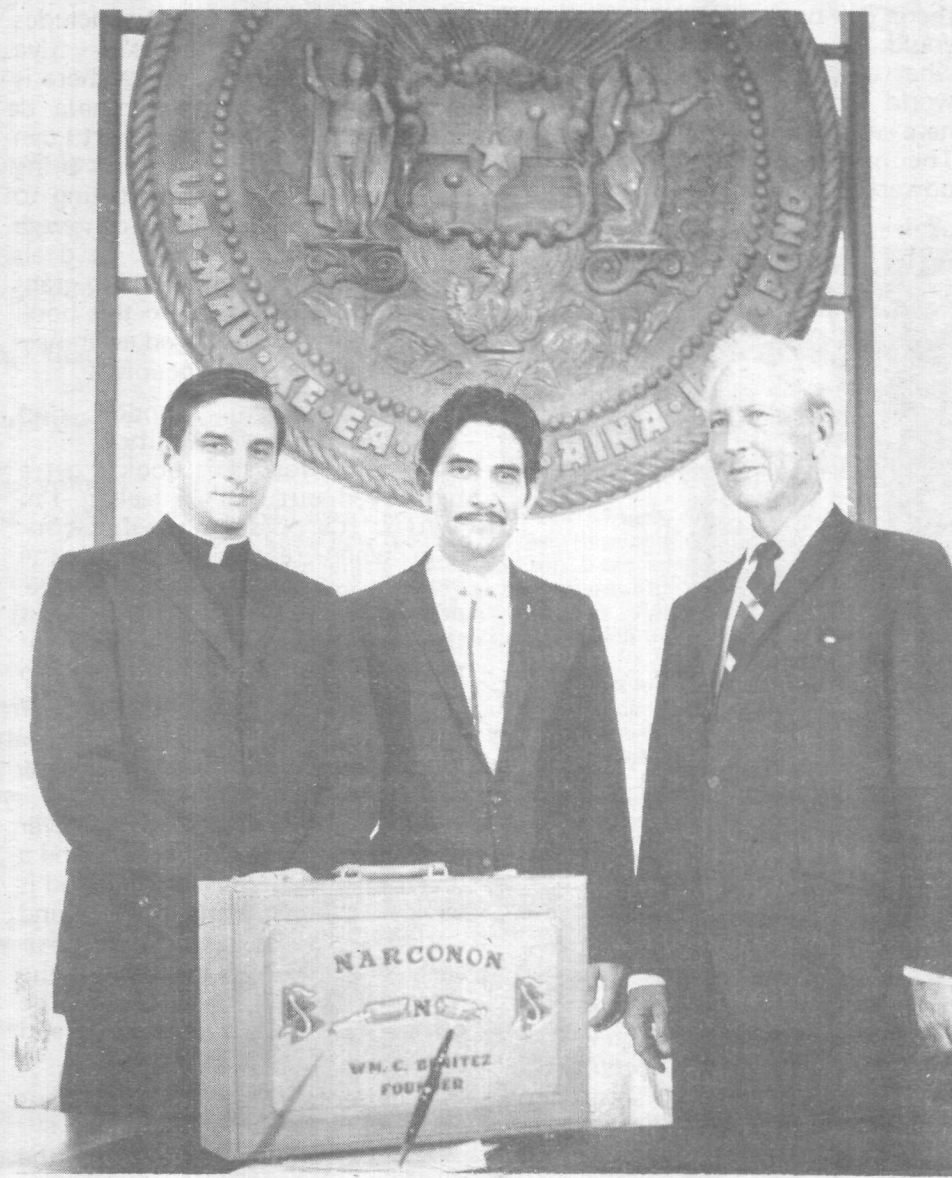

It seems so long ago — 19 years of struggle of addiction. I remember the many cycles ... "kicking the habits" and the creeping chills — the sentencing judges — the line-up of psychiatrists and psychologists with their probing and evaluations — the many years of confinement with its weariness of longing for a woman — the few attempts to "stay clean" and live a normal life — and, oh yes, the roller coaster would kick in again.

But now ... at the end of 19 years ... I had found the technology!

During my last trip to prison I had heard of a new science, and for thirty four months I devoted my every spare moment to the study of Dianetics and Scientology, and ... this was it! I had found the "Workable" something which I had searched for all of these years! My plight had been answered! This great science "actually" explained the source of all mental aberration which the "greats" had been trying to explain!

THEN IT HAPPENED ... the ticker tape spelled it out loudly and clearly ... Narconon and Scientology. At last the technology had come through to help me and others such as myself. Scientology's bridge had reached even us — the drug addicts."

William Benitez.
Founder of NARCONON.

Rev. John W. Elliot of the Church of Scientology of Hawaii, left; William Benitez, founder of Narconon, centre; and Governor of Hawaii, John A. Burns, right; pause briefly after extensive discussions with State officials regarding Narconon.

Born in Tucson 1934, Benitez made his first contact with drugs at the age of 13. The result led him into lifelong drug addiction to heroin, opium and the many derivatives — Benitez now 36 — is promoting to set up Narconon groups into prisons throughout the world.

During his 19 year addiction, Benitez has been through two marriages, both ending in divorce, and is a "four-time loser" where prison is concerned. He served a total of 13 years, in both Federal and State prisons which also included three trips to the Federal narcotic hospital in Fort Worth, Texas.

His years of confinement have led him to become widely read in psychology and related fields. Benitez has read many of the leading psychiatric authorities — Freud, Jung, Menninger are some he cites — in an effort to locate the means by which to end his addiction, but was most impressed when he located the technologies of Dianetics and Scientology.

The intense and soft-spoken founder describes his feelings of the Narconon program, "For 19 years I tried to get off of narcotics. My failure wasn't due to my not wanting to, because believe me I really tried. I studied anything and everything I could get my hands on to try to find out about myself. I even underwent psychiatric aid and participated in all sorts of programs but as time went on, I knew less about myself instead of more.

"The only thing that kept me from putting a gun to my head was that I knew someday I would make it. It was a straw ... but I clung to it.

'Once an addict, always an addict.'

"I've always been a fighter but at this point I began to wonder if maybe I shouldn't end it all. Then one day a friend of mine gave me a small 65 page Scientology booklet *Fundamentals of Thought* by L. Ron Hubbard. I figured, I might as well read this one. I've read all of the other 'ologies.'

"It was then that it happened. I thought to myself 'Wow! This man has said more in this one booklet than all the Authorities have said in all the texts that I've read.' Nothing was written about drugs or law ... yet, I then knew that I was on my way to *freedom from drugs* and *freedom from prison*. Incidentally, after I established Narconon, I found that my sentence was illegal and the courts released me.

"All this happened because I located a technology which allowed me to step into *cause*."

Within the walls of Arizona State prison, on February 19, 1966, 20 addicts united together in their quest for total freedom from their life-long affliction to drug addiction.

After receiving approval from the prison administration, the pilot group established itself and under the direction of William C. Benitez, began searching for a means to its end.

Upon their agreement, a task was set to correspond with the world-wide institutions of Scientology, and Narconon embarked into one of the most significant contributions this century has seen.

Communication lines were set up as Scientology acknowledged this small nucleus of men. The program gained momentum as they studied Scientology technology and practiced the drills. This brought about a greater increase in their perceptive ability, and the universe took on a different meaning ... such as they had never known before.

They spoke of cognitions; this meant a new realization of life. They spoke of new and beautiful futures. Narconon was not only a way of life but was also the force that would penetrate through the ignorance which had infiltrated the drug addiction problem.

Their efforts became symbolized by the name of NARCONON which was destined to reach throughout the world, and was looked upon with awe and wonder by those who did not know of the workability of Scientology.

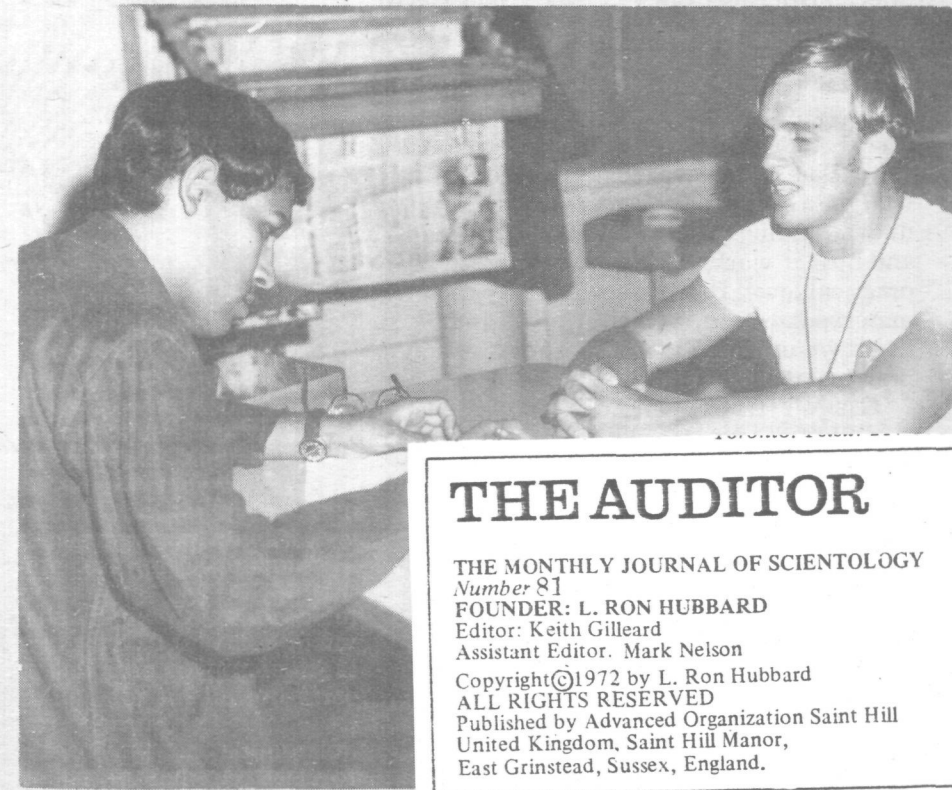

"I used to feel so sorry for all my friends who also were constantly trying to get off drugs and live a normal life. I had a big reality on what they were going through because I also had fallen into the pit. It's off, I wanted to help them so badly, and yet, I couldn't even help myself.

"I was so tired of the life of addiction, thievery, prostitution, smuggling, and all the enturbulation that goes with it.

"On my last trip to Arizona State Prison, I was tried as a habitual criminal which sentence carried a mandatory 15 years to life of which I received 15 to 16 years.

"It was at this point, after so many years of struggle, that I started to go into agreement with

A new enrollee being signed onto the Narconon courses

THE APPROACH OF NARCONON

The basic approach of Narconon is that drug users and individuals who commit crimes have problems in life, which they try to solve with the use of drugs or by committing crimes. These problems can be broadly classified as something they want to achieve and are not achieving or something they want to avoid and are not successfully avoiding.

Narconon employs procedures which enable the person to solve these problems without using drugs or committing crimes. Thus it is effective in rehabilitating drug users and preventing drug use. It restores the self confidence of the individual and increases his responsibility level.

WHAT DOES NARCONON CONSIST OF?

In Benitez's introduction to new members, he writes:

"You are now taking a very big step in what may very well be the beginning of an entirely new life for you. This may be the big step which you have often talked about which would set you free from a lifetime of prisons — this is one of the goals of Narconon.

The purpose of Narconon is to help you find out more about yourself and about life. You will be learning about communication and about control.

The purpose of Narconon is to help you find out more about the *game of life*, and how to "make things happen for you" and *not* "to you". And so you will learn and learn. The emphasis is Ability. Ability to handle *any* problem."

Benitez describes here how Narconon is different from other programs on the same purpose lines:

"One would hardly know in viewing a Narconon session that its participants were addicts (or whatever). This is so, as accent is placed on restoring the ability to perceive, pose and resolve *all* problems rather than concentrating *one* and calling it addiction or whatever. Emphasis is placed on validating the overall ability of the Narcononist by inviting him to be *cause* in life, rather than be the effect of it. The less a person is at cause, the less he is able to handle his thoughts, and re-evaluate those which are giving him trouble.

"The study of cause and effect is one of the many fascinating subjects which the Narcononist can learn through his studies of Scientology."

The program consists of several courses, each one gradually leading to more advanced ones. First offered is 'The Scientology Course in Personal Efficiency' which is divided into two sessions: Theory and practical. The theory section takes the men into the study of the definitions and anatomies of Cause, Control, Communication, Reality, Affinity, Responsibility, Understanding and other principles.

The practical section glides them further into *doingness*. Here the men learn precise Scientology Training Drills which have the end result of an improved ability in the origination and handling of communication and in handling oneself in life situations, and predicting and handling others.

With the use of these Scientology drills and courses the men doing them become;

More at cause, more in control, more in communications, more able to handle responsibility and have an

increased understanding of life.

RESULTS OF NARCONON

The results of the Narconon programme have been excellent. The majority of the graduates who have been released from prison are leading gainful lives free from drugs and crime. Several of them run their own businesses and assist other inmates in finding employment.

PRESENT TIME EXPANSION OF NARCONON

The present expansion of Narconon is occurring very rapidly. Narconon now has a program in the following locations:

Safford Conservation Centre, Safford, Arizona
California Medical Facility, Vacaville, California
California Rehabilitation Centre, Corona, California
California Women's Institution, Frontera, California
Youth Training School, Ontario, California
California Men's Institution, Chino, California
California Men's Colony, San Luis Obispo, California
Naval Correction Division, Boston Naval Yard
Long Island State Hospital, Boston, Mass.
Ventura School for Girls, Ventura, California
California Rehabilitation Centre, Women's Division, Patton, California
Hawaii State Prison, Hawaii
New Mexico State Prison.
Toronto in Canada has a Narconon Programme. Judges there are starting to give people being tried on drug charges a choice of going to prison or doing the Narconon programme.

Mexico City has a Narconon programme which is funded by the Mexican Government.
Sweden has a Narconon programme which is funded by the Swedish Government.

Public programmes, where people "off the street" can participate in Narconon, are located in: Los Angeles, San Francisco, Toronto and New London.

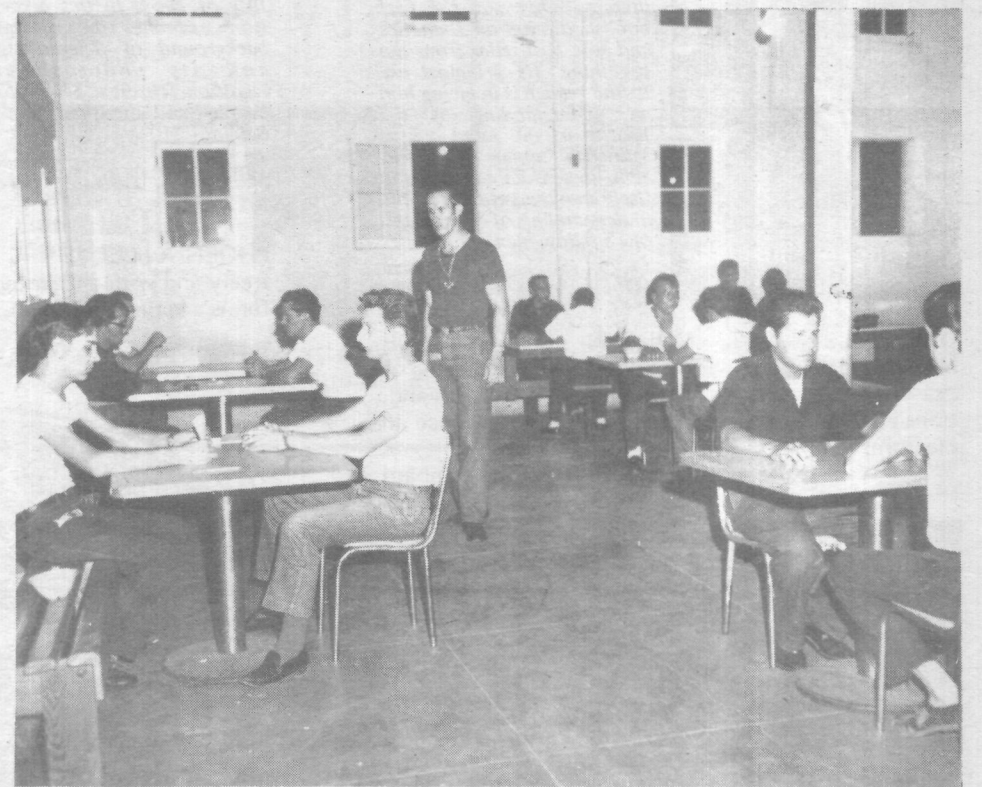

In Florida Congressman, Lou Frey, U.S. Representative and Chairman of the President's Drug Abuse Task Force has pledged his support and given Narconon his personal recommendation.

In New Zealand a programme is being set up, and in the following countries Narconon have been asked to set up a programme: South Africa, Rhodesia, Australia, England, France, and Denmark.

In Delaware Narconon had its first State Funded Programme. The state is giving thousands of dollars per year to Narconon to enable it to work swiftly towards freeing the addicts of drugs and so rid Delaware of its chronic drug and crime problem. The government there saw the great workability that Narconon has and was quick to get a programme set up in the State.

In Sweden, the drugs problem has been in the society for many many years and the government has been searching for a solution since the drug problem started.

After receiving a submission from the National Office of

Students on the Narconon Programme doing a training drill on the Communications Course. Don Mesaros is the Supervisor.

Narconon, which stated that the success rate of the programme they had was 871/2% and showed the success stories of all the addicts who had completed the programme, the Swedish Government accepted Narconon and gave them a State grant of many thousands of dollars to set up a Narconon programme throughout Sweden.

Stig Bjork, Narconon's Supervisor in Sweden says of his Government's grant:

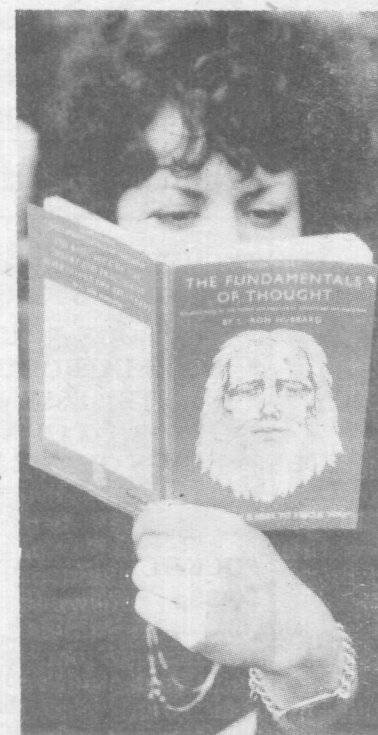

"Sweden has experienced the drug problem over many years and

has been desperate for a really effective programme to handle it. Narconon's presentation to Government was so impressive and contained so many success stories of people, young and old, being completely rehabilitated that they leaped at the opportunity of assisting us in our vital work. It was as obvious to them as to everybody else that NARCONON WORKS."

Even as this article is going to press a Narconon programme is being introduced to a new area of the world in following its purpose, the reduction of crime and drug abuse in the society, and the rehabilitation of the individuals concerned.

BOOKS AND THE MISUNDERSTOOD WORD

BY L. RON HUBBARD

The misunderstood word is the makeup of human relations, the mind and subjects. It establishes aptitude and lack of aptitude and it's what psychologists have been trying to test for years without recognizing what it was. It's the definitions of words, the misunderstood word. That's all it goes back to and it produces such a vast panorama of mental effects that it, itself, is the prime factor involved with stupidity and the prime factor involved with many other things. The basic law that "at the bottom of all alteration of meaning or action is a misunderstood word" at once explains why communication, ideas or application become falsified, twisted and corrupted.

Certain physiological reactions are brought about through a misunderstood word. It gives one a distinctly blank or a washed out feeling. A not-there feeling and a sort of hysteria will follow in the back of that. Also, the manifestation of 'blow' stems from a misunderstood word.

If a person didn't have misunderstood words, his talent might or might not be present but his doingness would be present. We can't say that Joe would paint as well as Bill if both were un-aberrated in the field of art, but we can say that the inability of Joe to paint compared with the ability of Joe to do the motions of painting is dependent exclusively and only

upon definitions.

There is some word in the field of art that the person who is inept didn't define or understand and that is followed by an inability to act in the field of arts. It is very important because it tells you what happens to doingness and that the restoration of doingness depends only upon the restoration of understanding of the misunderstood word.

In spite of any rebuff that you get, or of difficulty digging into some book to find out what it means, you actually put yourself in a soup at once the moment that you leave one word in a sentence behind you that you do not know the meaning of. One unknown piece of nomenclature left behind you can absolutely ruin your comprehension of the whole thing you're studying.

If you want to speed up your grasp of the situation, apparently do it the slow way. This obviously is a slow way to do it. But it's not the slow way to do it because it snowballs, you'll get faster and faster and faster, whereas if you don't do it this way, you will get slower and slower and slower.

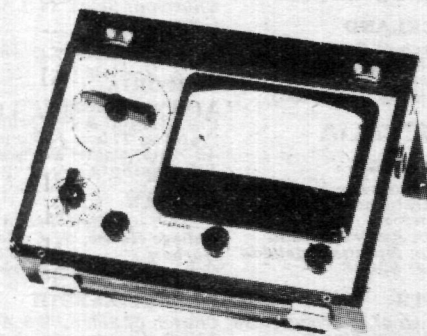

So never leave a word behind you in a study you don't know the meaning of."
