Baby Seal Paper Craft

Papercraft about animals are always popular all the time. I've been wanting to make it again, but have not decided what animal will be made. Papercraft about animals last thing I made was a pair of dolphins. I made a seal papercraft because I was inspired when I saw an article on 9GAG, about a baby seal that is very cute. I dedicated this papercraft to my newborn son, my second child. This papercraft pattern is quite simple, there are only two pages to be printed.
